## PROFILE

Software Engineering undergraduate pursuing a B.Tech in Computer and Communication Engineering, with strong foundational knowledge in data structures, algorithms, computer networks, and digital communication. Actively building skills in software development, machine learning, and generative AI, with a keen interest in solving real-world problems through scalable and efficient software solutions. Demonstrates strong analytical thinking, adaptability, and a proactive learning mindset. Seeking software engineering internship or fresher opportunities to apply technical knowledge, contribute to engineering teams, and gain hands-on industry experience.

## EDUCATION

KJ Somaiya | Mumbai, Maharashtra

Bachelor of Technology (B.Tech) in Computer and Communication Engineering

Duration: 2023 – 2027 (Pursuing)

Predicted Grade: Graduation

Key Modules: Four-year engineering program with emphasis on computer systems, communication technologies, algorithms, and software fundamentals.

Apeejay School | Nerul, Maharashtra

Senior Secondary Education (Class XII)

Duration: 2021 – 2023

Subjects: Physics, Chemistry, Mathematics, English, Computer Science

Apeejay School | Nerul, Navi Mumbai – 410210

Secondary Education (Class X)

Duration: 2016 – 2020

Subjects: Science, Social Studies, Mathematics, English, Hindi, Computer Science

## RELEVANT COURSEWORK

- Data Structures and Algorithms
- Computer Networks
- Digital Communication

- Operating Systems – Fundamentals
- Database Management Systems – Fundamentals
- Marketing Principles
- Business Communication

## TECHNICAL SKILLS

- Programming & Software Fundamentals:
  - Strong understanding of data structures, algorithms, and object-oriented programming concepts.
  - Ability to write clean, logical, and maintainable code.
- Computer Science Concepts:
  - Knowledge of computer networks, digital communication systems, and basic operating system concepts.
  - Understanding of how software interacts with hardware and network layers.
- Machine Learning & AI (Foundational):
  - Understanding of supervised and unsupervised learning algorithms.
  - Exposure to data preprocessing, feature selection, model training, and evaluation.

## SOFT SKILLS

- Problem Solving & Analytical Thinking:
  - Strong logical reasoning and structured approach to debugging and problem resolution.
  - Ability to break down complex problems into manageable technical tasks.
- Communication:
  - Clear verbal and written communication skills.
  - Ability to document solutions and explain technical concepts effectively.
- Teamwork & Collaboration:
  - Experience working on academic group projects and collaborative assignments.
  - Comfortable working in team-based development environments.

- Learning Agility:

- Fast learner with a strong interest in continuously improving technical skills.
- Actively explores new tools, frameworks, and technologies relevant to software engineering.

## WORK EXPERIENCE

OCTS (Oceanic Construction and Technical Services) | Navi Mumbai, Maharashtra

Role: Operations & Administrative Assistant (Current)

- Responsible for maintaining accurate records and performing regular data entry to support day-to-day operations.
- Manage filing and documentation processes to ensure compliance and easy retrieval of records.
- Handle applications and coordination for offshore work passes for employees and workers.
- Support basic HR-related activities, including document verification and employee record maintenance.
- Consistently cross-check and validate worker documentation to ensure accuracy and regulatory adherence.

CK Sons & Textiles | Internship

Role: Customer Service Representative Intern

Duration: May 2024 – June 2024

- Conducted daily outbound calls to potential clients in the United States to introduce the company and its products.
- Represented the organization in discussions related to bulk import-export textile products and international trade.
- Maintained and updated daily client interaction records in internal databases.
- Performed follow-up and cover-up calls to ensure continuity in customer communication.
- Escalated qualified leads and relevant client information to upper management for further business engagement.

## **CERTIFICATIONS**

- Machine Learning Certification

- Covered machine learning fundamentals, algorithms, and practical use cases.
- Gained hands-on exposure to data handling, model training, and performance evaluation.

- Generative AI Certification

- Focused on generative AI concepts, large language models, and AI-powered applications.
- Learned prompt engineering basics, ethical considerations, and real-world AI integration.

## **INTERESTS & HOBBIES**

- Football
- Reading
- Research and exploration of emerging technologies
- Watching documentaries related to technology and innovation

## **CAREER OBJECTIVE**

To secure a software engineering internship or entry-level role where I can apply my foundational computer science knowledge, gain hands-on development experience, and contribute to building reliable and scalable software systems. I aim to grow as a software engineer by working closely with experienced professionals, continuously learning new technologies, and delivering high-quality technical solutions.
